

# Urgent Appeal!

## Can you help?

For the past year Wildlives has had sponsorship to employ a part time assistant. Repeated promises have been made over the course of this year of further funding by another sponsor. The centre has now been let down and Wildlives looks set to lose this vital support. It will be impossible for Rosie and the volunteers to continue to care for the current level of wildlife admissions without Clair who has been employed in this role for the past few months and who has been an absolute asset to the centre. The centre has not been complacent and has continued to raise money, but this does not even cover running costs and Wildlives still runs at a deficit.

**We need £8500 for this year and future years if Wildlives is to stay open and continue the fantastic service that it provides for the preservation of local wildlife. We are looking for a company or a group of people who would be ready to fund this crucial support for Wildlives. Don't forget for every £1000 donated, the centre receives another £280 in gift aid!**

If you wish, this could include your logo or name on the front page of our website
